

Will the UN and World Bank Move to Zionist Israel?

by Hilary Grey *H.M. Royal Navy, Retired*

Among the most active behind-the-scenes protagonists of International Zionism have been the great financial cartels of Europe, profiting by international currency exchange. Their original and earliest effective agent was Britain's Lord Balfour whose dossier, in London, Paris and Moscow, should become better known to the people of the American hemisphere.

THE MACHINE GUN that looks like a baby carriage" was how Senator William E. Jenner described the United Nations Charter in a magnificent speech in the U.S. Senate on the 23rd of February, 1954. He meant that this innocent looking document—the work of Leo Pasvolksky, Russian-born U.S.

Assistant Secretary of State from 1936 to 1946, Alger Hiss, and others more sub rosa—had so many booby traps for Americans hidden beneath the semantic jargon that it was a Satanic weapon for the enslavement and Sovietism of the America we love.

The Chicago Tribune warned

Americans, if they had been listening, in a series of articles in 1954, that Pasvolsky had copied whole sections of the UN Charter word for word, and virtually intact, from the Kremlin's dishonest "Constitution" of the USSR. Pasvolsky died in 1953; Alger Hiss and the other behind-the-scenes "advisors" to Franklin D. Roosevelt are still alive, and hard at work in Canada as well as the United States to sabotage American sovereignty.

The UN Charter is a blueprint of anti-Christ tactics and obscure semantics—evil disguised as good. Bishop Fulton J. Sheen warned again in 1950: "The Antichrist will not be *so* called; otherwise he would have no followers. He will wear no red tights, nor vomit sulphur . . . *He will come disguised as the great humanitarian . . .*"

Slogans are the anti-Christ weapons against weak or asleep minds, such as "Universal Brotherhood" and "Peaceful Coexistence," "Racial Discrimination," "Imperialism" and "Capitalism." Innocuous they seem. But they are clever disguises for the work of the devil, bait for the innocent or unalerted. Let us take a more attentive look at World Government.

Are we of the American hemisphere like animals walking into man-traps lured with the smell of an easy feast?

The ideology *behind* World Government is that National Sov-

The first Prime Minister of Israel had the genius to understand that the greatest miracle of modern Jewish history—the rebirth of Jewish Statehood—was only a single link in a vast chain of events, of which Medinat Yisrael was neither the beginning nor the end.

ereignty is the cause of all the world's evils. So nations should hand over their sovereignty, arms, armaments, H and A bombs, missiles, and economies to a UN World Government; should abolish all national forces, and rely only on a United Nations World Police Force. The Messianic Age or the era of World Peace would then arrive.

The Chief Rabbi of Israel, Dr. Hertzog, not given to merely wishful dreaming, forecast in London—December 1954—in the London JEWISH CHRONICLE that his ISRAEL would "bring about the glorious era of the abolition of armaments and the establishment of peace throughout the world—the fatherhood of God and the brotherhood of man."

ACCORDING to the World Government and World Federalist Constitutions, drafted by Professor Louis B. Sohn, of Harvard Uni-

versity [a refugee from pre-war Poland who sometimes works with an elderly New Hampshire "front" named Grenville Clark] World Government is to "*Reflect population strengths.*" This would surely give the Communist Nations, and their allies in the teeming Afro-Asian bloc, a *majority of votes against us in the UN World Government.* Pro-Communist India alone has 400 million people; the USSR another 200 million. *IF*, and when, Red China (600 million) was admitted, then the Red International Communists would have an absolute majority of votes against the United States and the entire Western Hemisphere from Canada to Argentina and Chile.

"To me, it is as clear as daylight that Providence is now reshaping history, and that out of this small beginning of Jewish statehood, something exceedingly great will evolve, D. V., within the none too distant future. Eventually it (i.e. Israel) will lead to the inauguration of that true union of the nations through which will be fulfilled the eternal message to mankind of our immortal prophets."

Extract from a letter published in the Irish Independent (Dublin daily newspaper), January 6th, 1948, written by the Chief Rabbi of Israel, Dr. Hertzog.

And we are asked to surrender to this massive Communist vote bloc our weapons and the control of our economics and armed forces!

No wonder the top 178 American leaders of World Government belong to 1,696 Communist Fronts!

The final location of World Government is unlikely to be either New York or Moscow—since both cities are on "belligerent" sides in the Cold War. A "neutral" city is someday surely to be publicly proposed, as planned.

I have heard internationally minded men advocate Jerusalem as the center of a future World Government because it is *the* city historic to the Christian, Jewish and Mohammedan faiths, centrally situated for both East and West blocs. Moreover, they will claim, neutral Israel is well located geographically and economically to be the "Switzerland" of the Middle East and the financial link between *three* continents—Europe, Asia and Africa.

CERTAIN statesmen have already suggested that the UN, and its predecessor, the League of Nations, should move to Jerusalem. Premier David Ben-Gurion was reported as saying in 1948: "Our policy must be the unity of the human race . . . *We consider that the United Nations ideal is a Jewish ideal.*" And a year later he

was quoted in the London JEWISH CHRONICLE as follows: "Jerusalem is not only the capital of Israel and *world Jewry*; it aspires to become the *spiritual center of the world*, as envisaged by the Prophets."

INTERNATIONAL Communism, also, I would not object to the Headquarters of a Communist-controlled UN WORLD GOVERNMENT being moved to Jerusalem. Communism is not a Russian but an *international* movement. Moscow's current, superficially

seeming "anti-Zionism" is considered by competent intelligence observers to be only a temporary maneuver for quickly wooing the Arab-Moslem peoples of the Middle East and North Africa. American Zionists appear to be collaborating with the Reds in attaining this objective by pressuring the State Department to follow a pro-Israel, anti-Arab line which will subvert all Arab-Moslem American sympathies, and develop the final explosive vacuum of a seeming spontaneous anti-U.S. combustion in these oil-rich lands.

Israel should take the initiative in a movement for world government, declared Dr. A. V. Levontin, of the Faculty of Law at the Hebrew University, when he addressed the Society for Jewish Study on "A Jewish Foreign Policy" at a meeting held at 33 Seymour Place, W. 1 (London), on Tuesday.

They lived in the days of disintegration of the sovereign state. It was now a commonplace, said Dr. Levontin, that the national sovereign state was an anachronism; that it had become inconsistent with the physical continuance of man. Hence the yearnings for world government. A serious, as distinct from a politic, movement for world government must be rather unpopular with the existing governments of states. It must also entail effort and expenditure beyond anything like the present. It could function only with the encouragement, or at least under the protective wing, of a state which adopted it.

"I suggest," said Dr. Levontin, "That Israel should be that State."

It might not be idle, he went on, to speculate that a *Jewish* foreign policy might at the present moment come to the rescue of Israeli foreign policy. Because humanity was desperately in need of a serious movement for world government, it might be expected to become interested in preserving the state which sheltered that movement.—*Verbatim Extract From the London Jewish Chronicle of October 21st, 1955*
